

Build-Operate-Transfer (BOT) Master Services Agreement

Standard Enterprise Engagement Framework & Global Capability Center (GCC) Protocols

1. Scope of Engagement

HansAI Technosoft LLC ('Provider') shall establish, staff, operate, and progressively transition a dedicated technology capability center tailored to the Client's operational requirements.

2. BOT Operational Phases

- Build Phase: Facility setup, talent acquisition, infrastructure provisioning, and technology onboarding.
- Operate Phase: Active engineering execution, agile sprint delivery, KPI monitoring, and operational excellence.
- Transfer Phase: Seamless transfer of legal entities, assets, employee contracts, and institutional knowledge to Client ownership.

3. Intellectual Property Rights

All custom software, architectures, workflows, and machine learning models developed during the term shall be the exclusive property of the Client upon creation and payment.

4. Contact & Execution
